PROFILE

An ambitious and self-motivated entrepreneur with a strong educational background who possesses self-discipline and the ability to work with minimum supervision. A good team player who thrives on creating engaging creative solutions is deadline-oriented and can produce detailed technical specifications from client requirements.

WORK EXPERIENCE

Systems Development Specialist

National Statistics and Information Authority (NSIA) 2019-2022

- **NSIA** was established in 1972 as an independent authority within the government of Afghanistan to establish a coordination mechanism for managing statistical information within all sectors of the country.
- **Afghanistan Passport System** - Developed a process-based system that checks fingerprints and after validation issues Diplomatic, Service, Special, and Ordinary passports.
- **Afghanistan Visa System** - Developed a system to issue valid visas to a foreigner who wants to visit Afghanistan.
- **Attestation System** - Developed a system to attest documents in MoFA and Afghanistan embassies. Also developed an Integration mechanism to connect this system with the Afghan Post.

Tools and Techs:

C#, ASP.Net Core, JS, Bootstrap, SQL Server, PostgreSQL, LINQ, EF, Git, Gitlab.

Software Developer

Salam Afghanistan Media Organization (SAMO) 2017-2019

- **SAMO** is a news agency, supported by the US government that broadcasts Afghanistan news.
- **European Union project for Election** - I was a part of this project and led the developer's team to collect statistical information through mobile applications and work online and offline.
- **RMS(Radio Management System)** - I have designed and developed the whole system from database design to implementation for Radio management and spot reporting.
- **SWN website** - It's a news website that was developed by ASP.net with custom CMS and now it uses WordPress.

Tools and Techs:

C#, ASP.Net, JS, Bootstrap, SQL Server, LINQ
